

Scoring Guide Walk Through

The point of this guided walk through is for practice getting the rhythm of the scoring sheet in a game setting. Print out a score sheet from this [link](#) and follow along with the following simulated match. The guide will start from getting to the table, pre-match conference, timed warmup, both sets and post-match. The first Set will be step by step and the second set expects you to do the work on your own.

There are screen shots of a filled in score sheet along the way so that you can double check your work and make sure you have done all of the marks. During the simulated match the action on the court is in the left column while the corresponding action by the scorer is in the right column.

Detailed Procedures

There are a couple of repeated sequences that happened often in a match that are going to be spelled out now. Refer to these procedures when you see them in the scorer's action.

Writing down scores

When a score is written down, at substitution or timeout, the first score is that side's current score followed by opponent's current score. If a substitution is done for both teams,

Team A would be # 5:3 and Team B would be # 3:5

Order	I	II	III	IV	V	VI	13 25	13 25	I	II	III	IV	V	VI
	20	05	19	33	32	01	14 26	14 26	24	04	14	12	15	18
	:	40	5:3	25	8:6	:	15 27	15 27	:	:	17	3:5	28	1:3
							16 28	16 28						

Substitution sequence

When doing substitutions mark the information in the following order

1. Number replacing number
2. Tally the use of the substitution
3. Repeat steps 1 and 2 for all subs for both teams
4. Write down the score for each substitution

The order is important so that sub can get on to the court and get ready for the next play while you finish writing down the information on the score sheet.

Marking correct server

Cross off the number in the Service Round boxes to indicate the correct server has/is serving.

Get to the table

The scorer has the most work to do of all the officiating team members. You need to have your pencil and pen ready to go and start to collect and record information as soon as possible.

Locate the score sheet and fill in the information that is already known.
This should be done with a Pen as this information will not change.

Pre-Match

Fill in tournament information (if not already typed on the score sheet)
